

Nominee – SPR Director of Membership

BIOGRAPHICAL SKETCH

Hannah C. Glass

Education:

Columbia College of Columbia University, BA	1995	Biology/Psychology
McGill University, MDCM	2001	Medicine
University of California, San Francisco, MAS	2008	Clinical Research

House Staff and Fellowship Training:

University of Calgary	2001-2003	Pediatrics
University of Calgary	2003-2006	Child Neurology
University of California, San Francisco	2006-2008	Neonatal Neurology

Faculty Positions:

2006-2008	Instructor of Neurology and Pediatrics, UCSF
2008-2013	Assistant Professor of Neurology and Pediatrics, UCSF
2013-present	Associate Professor of Neurology, Pediatrics, and Epidemiology & Biostatistics, UCSF

Current Positions:

Associate Professor of Neurology, Pediatrics, and Epidemiology & Biostatistics, UCSF
Director, Neonatal Neurocritical Care Services, UCSF
Neonatal Neurology Fellowship Program Director, UCSF
Associate Director, UCSF CTSI Young Investigator Program

Society Memberships: Society for Pediatric Research, Child Neurology Society, American Neurological Association, International Child Neurology Association

SPR Activities: Over the past 10 years I have actively participated in SPR by attending the PAS Annual Meeting as a presenter, moderator, abstract reviewer, and organizer for scientific content. I have been a member of the SPR Program Selection and Meeting Content Committees since 2014. In 2015, I was elected as your Neurology representative to SPR council and have enjoyed attending these meetings that help to serve the SPR membership.

Research Interests: As a child neurologist with special interest in neonatal neurology, my overarching research goal is to understand how to mitigate neonatal brain injuries to ensure that at risk children thrive in their everyday lives.

Other Information: Editorial Board: *Pediatric Neurology*; Guest Editor: *Seminars in Fetal and Neonatal Medicine*; Guest Editor: *Handbook of Clinical Neurology*. Former: avid yogini, mountain biker, world traveler. Current: mom/stepmom to toddler/teen.

Comment: The focus of the Society for Pediatric Research is to foster the research and career development of investigators engaged in the health and well being of children and youth. I have had the pleasure of helping to fulfill this same mission locally at UCSF by actively mentoring students and faculty to help them achieve their personal, clinical and research goals. I have met friends, colleagues and collaborators through my involvement with SPR and would be thrilled to have the opportunity to give back to the society by acting as Director of Membership.
