

Nominee – SPR Council (Neurology)

BIOGRAPHICAL SKETCH

Courtney Wusthoff

Education: Stanford University: M.S., Epidemiology and Clinical Research, 2014
University of California, San Francisco: M.D., 2004

House Staff and Fellowship Training: Intern, Pediatrics, Children's Hospital Oakland, Oakland, CA, 2004-5; Junior Resident, Pediatrics, Children's Hospital Oakland, Oakland, CA, 2005-6; Resident, Child Neurology, Children's Hospital of Philadelphia & Hospital of the University of Pennsylvania, Philadelphia, PA, 2006-9; Fellow in Pediatric Epilepsy and Clinical Neurophysiology, Children's Hospital of Philadelphia, Philadelphia, PA, 2009-10.

Faculty Positions: Visiting Researcher and Locum Consultant in Neonatal Neurology, Imperial College London and Imperial College Healthcare NHS Trust (Hammersmith Hospital), London, UK, 2010-2; Assistant Professor of Neurology and Neurological Sciences, Stanford University School of Medicine, Palo Alto, CA, 2012-present; Assistant Professor of Pediatrics- Neonatal and Developmental Medicine, Stanford University School of Medicine, Palo Alto, CA, 2012-present.

Current Position: Assistant Professor of Neurology and Neurological Sciences and Pediatrics- Neonatal and Developmental Medicine, Stanford University School of Medicine, Palo Alto, CA; Neurology Director, Neuro NICU, Lucile Packard Children's Hospital Stanford, Palo Alto, CA.

Society Memberships: American Clinical Neurophysiology Society, Critical Care EEG Monitoring Research Consortium, American Academy of Neurology, American Epilepsy Society, Child Neurology Society, Society for Pediatric Research, American Academy of Pediatrics, The International Society for Evidence Based Neonatology (EBNEO)

SPR Activities: SPR Representative to the Pediatric Academic Societies Meeting Program Committee 2014-present. SPR PAS Content Workgroup co-chair (2017-present). Active member since 2013. Abstract reviewer for Annual Meeting.

Research Interests: Neonatal neurology. EEG and seizures in critically ill neonates and children.

Other Information: AAP Section on Neurology External Affairs committee member.

Comment: SPR fills a much needed role in opening doors for young researchers and promoting the best in pediatric research. It has been a pleasure to facilitate SPR's shaping of the annual PAS program; I would be honored to serve on the Council to contribute to SPR's broader efforts. Particularly given the rapidly advancing research in neonatal neurology, I would like to see expansion of SPR's reach into the field of pediatric neurology.
