

Hiremath, Girish

Girish Hiremath, MD, MPH is an Assistant Professor of Pediatrics (Division of Pediatric Gastroenterology, Hepatology and Nutrition) at the Monroe Carell Jr. Children's Hospital at Vanderbilt, and an Assistant Professor of Biomedical Engineering at the Vanderbilt School of Engineering. He attended medical school at the VSS Medical College, India, and completed a residency in Pediatrics at the INOVA Children's Hospital. He completed fellowship in Pediatric Gastroenterology, Hepatology and Nutrition at the Texas Children's Hospital, Baylor College of Medicine. Dr. Hiremath also received a Master's degree in Public Health at Johns Hopkins Bloomberg School of Public Health.

Dr. Hiremath is board-certified in pediatrics and pediatric gastroenterology. He leads the Eosinophilic Gastrointestinal Disorders Clinic at Monroe Carell Jr. Children's Hospital at Vanderbilt. The focus of his clinical translational research lies at the intersection of eosinophilic gastrointestinal disorders and biomedical engineering. In particular, his research focuses on advancing our understanding of epidemiology and improving diagnosis, monitoring and management of eosinophilic esophagitis. Dr. Hiremath's commitment to eosinophilic esophagitis research and patient care has been supported and recognized via his appointment to the NIH training grant (T32 DK007664), the Consortium of Eosinophilic Gastrointestinal Disease Researchers training award (U54 AI117804), and the Turner-Hazinski Research Award Junior Faculty Development award. His research has also been supported by the American College of Gastroenterology and the American Gastroenterology Association.
