

Sithisarn, Thitinart

Dr. Sithisarn is now Associate Professor of Pediatrics at Division of Neonatology, Department of Pediatrics, University of Kentucky. Dr. Sithisarn graduated from Chulalongkorn University in Bangkok, Thailand and was trained in Pediatrics at Phramongkutklao Hospital. She also got her Pediatric Residency training at Kosair Children's Hospital, University of Louisville. She was trained in Neonatal-Perinatal Medicine at University of Kentucky where she joined the faculty. She was mentored by Dr. Henrietta Bada and developed her interest in neonatal research involving the effects of perinatal drug exposure on the brain, stress axis and neurodevelopment which she continues to work on. She is now a Neonatal-Perinatal Fellowship Program Director at University of Kentucky.
