

CONNECT. COLLABORATE. CATALYZE RESEARCH.

## **Tofil, Nancy**

Nancy Tofil, M.D., MEd is a professor of pediatric critical care at the University of Alabama at Birmingham (UAB). She is the division director and the medical director of the PICU at Children's of Alabama. She is the co-medical director of the pediatric simulation center and one of the original founders of the center which has educated over 50,000 learners since 2008. She also is the associate program director of the pediatric residency program at UAB. Her research focus includes the use of simulation to improve adult learning and retention and using simulation in non-traditional clinical care settings.
