

### **Tansey, Michael**

Dr. Michael Tansey is a Clinical Professor of Pediatrics in the Stead Family Department of Pediatrics at the University of Iowa. He received his B.S. in Biology from Creighton University and his M.D. from Loyola Stritch School of Medicine. He completed a pediatric residency and pediatric endocrinology fellowship at the University of Iowa Hospitals and Clinics. His career has focused on clinical studies of children with type 1 diabetes. He started his research career in 2001 as an investigator in the Diabetes in Research Children Network (DirecNet) and has continued to work with this innovative and productive research group. Dr. Tansey has also been engaged with other major clinical trials in children with type 1 diabetes including the JDRF Artificial Pancreas Project examining the role of continuous glucose monitoring in type1 diabetes and the T1D Exchange Study. He has also made important contributions to the body of literature in the area of exercise and glycemic effects in type 1 diabetes.
