

Weisz, Dany

Dr. Dany Weisz is a neonatal intensivist and director of the targeted neonatal echocardiography program at Sunnybrook Health Sciences Centre in Toronto, Canada. He completed medical school at the University of Western Ontario and residency in general paediatrics at the University of Ottawa. He completed his clinical fellowship in neonatal-perinatal medicine and Master of Science in Clinical Epidemiology and Health Care Research at the Institute of Health Policy, Management and Evaluation, both at the University of Toronto. Dr. Weisz's research interests include the epidemiology and management of patent ductus arteriosus, transitional hemodynamics and its association with early neonatal morbidity, and non-invasive cardiac output monitoring in extremely preterm infants.
