

**Faculty Physician - Pediatric Neonatology  
University of Minnesota & Children's Minnesota  
Minneapolis/St. Paul, MN**

The Division of Neonatology at the University of Minnesota is seeking a full time board certified/eligible Neonatal-Perinatal Physician at the rank of Assistant Professor/Associate Professor on the Academic Track.

We seek a candidate with demonstrated clinical experience in newborn intensive care with research interests in the fields of neonatal nutrition, neurodevelopment, hematology, pulmonology/resuscitation, global neonatology, ethics, or infection/immunology. The successful candidate will primarily serve the Level IV NICUs located in the University of Minnesota Masonic Children's Hospital and Children's Healthcare (Minneapolis and St. Paul campuses) and assist with bridging research efforts between the two institutions.

**Applications should be addressed to the chair of the search committee, Sara Ramel, MD.**

**About the Division of Neonatology at University of Minnesota:**

The University of Minnesota Masonic Children's Hospital is nationally ranked as one of the best Children's Hospitals with special recognition in five sub-specialties, including Neonatology (source: 2018 US News and World Report). The Division is a national leader in providing innovative care, conducting research, and teaching skills to recognize and treat medical problems of the neonate. The Division participates fully in the Department of Pediatrics mission, focusing its attention through patient care, teaching and research on medical problems that arise during infancy and the consequences of disease that persist into later life. The Division serves as a resource for other newborn intensive care units for infants with multi-organ system failure, complex diagnostic and surgical problems, and long-term, technology-dependent conditions. **About Children's Minnesota**

Children's Minnesota is the seventh largest pediatric health system in the United States and the only health system in Minnesota to provide care exclusively to children, from before birth through young adulthood. An independent and not-for-profit system since 1924, Children's serves kids throughout the Upper Midwest at two freestanding hospitals, 12 primary and specialty care clinics and six rehabilitation sites. Children's is Minnesota's only Level I pediatric trauma center inside a hospital dedicated solely to children and is verified as a Level I Children's Surgery Center by the American College of Surgeons. Children's maintains its longstanding commitment to the community to improve children's health by providing high quality, family-centered pediatric services and advancing those efforts through research and education, Children's received Magnet® recognition from The American Nurses Credentialing Center (ANCC) in 2018 and is regularly ranked by U.S. News & World Report as a top children's hospital. Please visit [childrensMN.org](http://childrensMN.org). The [Children's Minnesota neonatology program](#) encompasses the largest high-risk neonatal care program in the Upper Midwest. We are committed to consistent care across the community, limiting unnecessary variation, identifying and spreading best practices, and rapidly addressing opportunities for improvement. We have 194 neonatal beds, 24 neonatologists, and have

participated in numerous clinical trials over several decades. Our Children's Minnesota neonatal program cares for 1,900+ newborns annually, and more than 500 babies are transported annually by the Children's Minnesota Neonatal Transport Team. We have three Mother Baby Centers that combine Allina Health's fetal and maternal services with Children's Minnesota neonatal and pediatric specialty care.

**Qualifications:**

- Graduate of an accredited ACGME Pediatric residency and a Neonatal-Perinatal fellowship-training program.
- Board eligible/certified in Neonatal – Perinatal Medicine
- Licensed or ability to obtain Minnesota Board of Medical Practice Licensure.
- Ability to obtain/maintain DEA certification in the State of Minnesota
- Meet threshold criteria/qualifications for Credentialing and Privileges
- Ability to receive work authorization in the United States from the U.S. Citizenship and Immigration Services and maintain legal status according to the requirements of VISA category while in the United States.
- Demonstrated clinical experience in newborn intensive care and research interests in the above-mentioned fields.

**Income Details:**

- Competitive compensation
- Comprehensive benefits package: generous time off, annual CME allowance, malpractice insurance with tail coverage, retirement contributions, relocation & more.

**M Health and Clinical Partnerships:**

University of Minnesota Medical Center is the teaching hospital of the University of Minnesota Medical School and a 1,932- licensed bed facility. Located on the banks of the Mississippi River near downtown Minneapolis. The medical center offers a comprehensive range of primary and specialty care services. As one of the most respected academic medical centers in the nation, University of Minnesota Medical Center balances responsiveness to patients' needs with access to innovative treatments and technology, delivering superior health outcomes. University of Minnesota Physicians providers practice at affiliated locations under the University of Minnesota Health (M Health) shared care delivery system. M Health represents a collaboration between University of Minnesota Physicians, University of Minnesota Medical Center and Fairview Health Services to create a nationally renowned academic health system that combines academic and community resources to provide the very best clinical care to patients and communities, while also supporting research and education across the joint healthcare delivery system.

**Community Information:**

The Minneapolis-St. Paul metropolitan area is a thriving community of nearly 3.5 million people. We have a strong, diversified economy, excellent education system, and a high quality of life that can be enjoyed during all four seasons. It is a great place to live, work and raise a family. Its home to 17 fortune 500 companies, four major professional sports team and is second to New York in theatre seats.
