

Introduction to the SPR Junior Section

@SocPedResearch

@Junior_SPR

#SPR #pedresearch

<http://www.societyforpediatricresearch.org/>

What is SPR?

HISTORY

- 1929: SPR originated because of discontentment among young investigators - referred to as “Young Turks” - who felt the existing pediatric societies were dominated by very senior faculty

MISSION

- To create a multi-disciplinary network of diverse researchers to improve child health

MEMBERSHIP (Active)

- Honorary society
- Membership is by current Member nomination and Council review
- Eligible Members have a record of current, independent research related to child health

SPR Junior Section

- Established in 2012
- Residency &/or Fellowship through first 6 years as faculty
- **Free** – no cost for junior membership
- “Rolling Admissions” by self-nomination
- Leadership: Fellows
- Junior members receive SPR communications, are invited to SPR events and may serve on SPR committees as approved by Council

SPR Active Member

- Individual engaged in ongoing, independent, hypothesis-driven research related to pediatrics
- Track record of independent work initiated since fellowship (original science manuscripts)
- Typically hold a faculty appointment at the mid/late assistant or early associate level or higher
- Annual dues \$350 (includes online subscription to Pediatric Research)
- No age restrictions!

SPR and PAS

Pediatric Academic Societies – host of the annual spring meeting

Partner Societies

- **Society for Pediatric Research (SPR)**
- Academic Pediatric Association (APA)
- American Academy of Pediatrics (AAP)
- American Pediatric Society (APS)

SPR Members @ PAS

- Contribute to science
- Review abstracts, moderate sessions
- Serve on key committees

Why Join SPR?

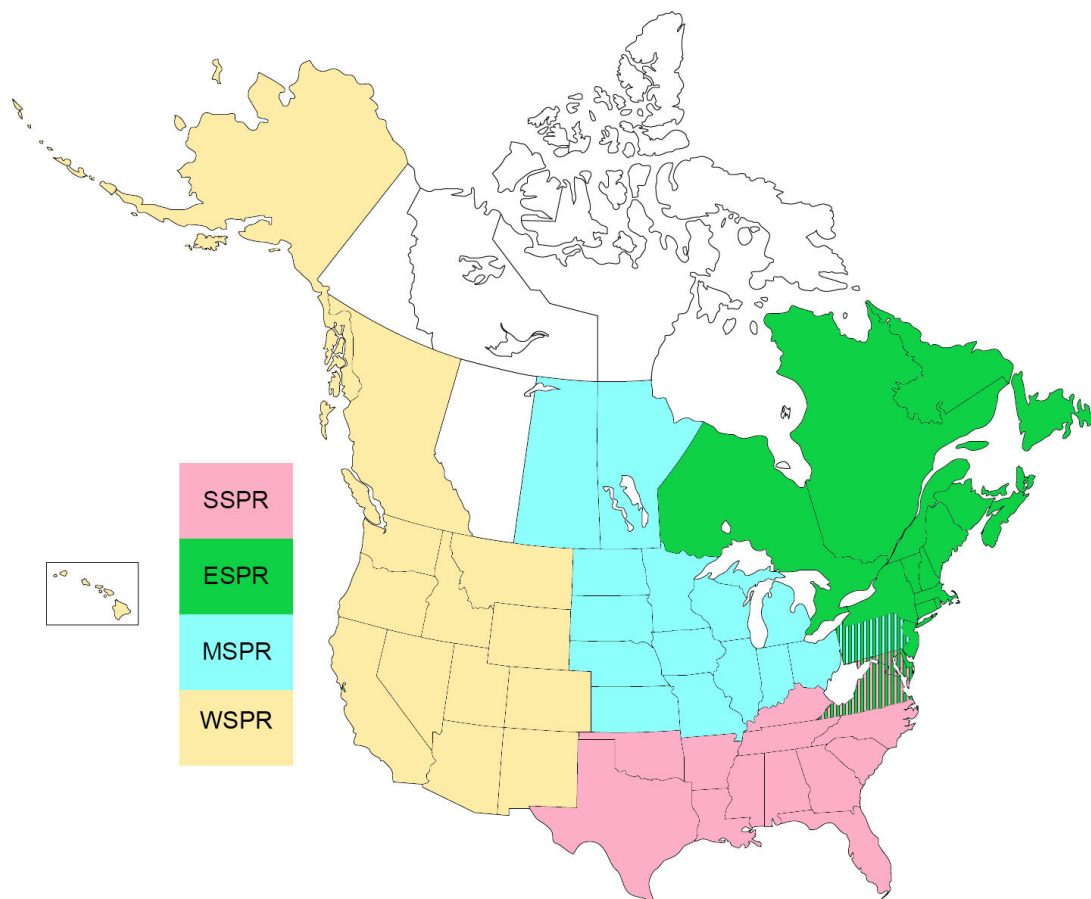

- Aids Fellows in transition to faculty role
- Professional networking
- Opportunities for participation in regional/national SPR programs
- Recognition through awards and grants
- Opportunities to advocate for child health research funding

SPR Junior Section

- Aids Fellows in transition to faculty role
 - ❖ Mentoring programs
 - ❖ Grant Writing course
 - ❖ Bridging to Success Award
 - ❖ PROSPER Diversity Award
- Professional networking
- Opportunities to participate in regional/national SPR programs
 - ❖ PAS Meeting: SPR Sessions at PAS
 - ❖ Regional SPR Meetings: Southern, Western, Eastern, Midwest
- Recognition through awards and grants
- Opportunities to advocate for child health research funding
 - ❖ Advocacy Committee

SPR Regional Societies

Midwest SPR

October Meeting

Western SPR

January Meeting

Transition to SPR Active Membership

SPR Active Members are:

- Engaged in ongoing, independent, hypothesis-driven research related to pediatrics
- Have a track record of independent work as demonstrated through original science manuscripts published from work that was initiated after training was complete
- New SPR Active Members typically hold a faculty appointment at the mid/late assistant or early associate level

SPR Junior Section Leadership

President

Lila Nolan, MD

Lila Nolan is a fellow in the Neonatal-Perinatal Medicine program at the Washington University School of Medicine in St. Louis. Her research interests involve the study of the cellular and molecular mechanisms involved in the pathogenesis of necrotizing enterocolitis (NEC). She joined laboratory of Dr. Misty Good upon starting her fellowship and currently studies the mechanisms by which dietary aryl hydrocarbon receptor (AhR) ligands mediate protection against intestinal inflammation using a murine model of NEC. This investigation introduces a novel therapeutic for infants with NEC and will advance the current understanding of NEC pathogenesis.

As an officer of the SPR Junior Section, she aims to provide junior members with education and support to foster successful careers as physician-scientists.

President-elect

Maria Susana Rueda Altez, MD

After medical training in Peru, Dr. Rueda Altez completed a pediatric residency in Washington, DC and then entered pediatric infectious diseases fellowship training. She has conducted clinical and translational research projects in neonatal sepsis since 2014 and her current research focuses on neonatal antimicrobial and diagnostic stewardship. She is also passionate about the peer-review process, and currently serves as a Guest Editor and social media editor for The Journal of Pediatrics. As SPR Junior section president, her primary goal is to ensure more trainees benefit from networking opportunities. She plans to leverage her online communications experience to increase awareness, membership and participation in SPR among students, residents and fellows.

SPR Junior Section President-elect elections are held each year in July

CREATING A
MULTI-DISCIPLINARY
NETWORK OF DIVERSE
RESEARCHERS TO
IMPROVE CHILD HEALTH

Benefits of Membership

-  Research and Presentation Forum
-  Honoring Pediatric Researchers
-  Advocacy for Child Health Research
-  Developing Pediatric Researchers

SPR offers strategic and practical support for pediatric researcher members. Active Members serve as mentors **to fellows and junior faculty** through SPR Junior Member Section and the Young Investigator Coaching Program, providing career development guidance. SPR offers **early stage investigators** special support through the K-Club grant-writing course and via the Bridging to Success grant. SPR Active Members host international fellows through the Japan Pediatric Society (JPS) Fellow Exchange Program, expanding SPR's network of pediatric researchers beyond North America.

-  Additional Benefits

Membership Categories

-  Active Members
-  Senior Members
-  Affiliate Members
-  Junior Members

Junior Membership nomination is open to individuals who are currently enrolled in or not more than six years graduated from established residency, fellowship or postdoctoral program related to pediatrics in an academic institution. Junior Members may self-nominate year-round and are not assessed membership dues. Junior Members who have transitioned to faculty and published independent, hypothesis-driven work initiated after fellowship in which you are the first or last author may be eligible for nomination to the Active Member category and are encouraged to apply during the annual Call for Nominations. Visit the SPR Junior Section for additional details.

Annual Dues: \$0

THE APPLICATION PROCESS**

Welcome to the Junior Section

About:

The Society for Pediatric Research Junior Section introduces residents, fellows and early career faculty members to SPR by providing a variety of resources and educational opportunities. The goal is to promote networking within pediatrics and continue the development of scientists, as well as to foster transition to a career in pediatric science and eligibility for SPR [Active Member](#) status.

Junior Member nomination is open to individuals who are currently enrolled in or not more than six years graduated from an established residency, fellowship or postdoctoral program related to pediatrics in an academic institution.

The information below will be requested when submitting an application/nomination:

- Applicant's personal and professional contact information.
- Applicant's residency, fellowship, or postdoctoral completion date or anticipated completion date.
- Applicant's Program Director (Residents/Fellows) or Department Chair's (Junior Faculty) contact information.

Eligibility:

Currently enrolled in or not more than six years graduated from an established residency, fellowship, or postdoctoral program related to pediatrics in an academic institution.

Any incomplete applications will be deleted after six months from the initial application date.

Pediatric Research

- Official Journal of SPR, APS and the EuroSPR

SPR Perspectives

This is a screenshot of the 'Pediatric Research' author resource hub. The header features the 'Pediatric RESEARCH' logo and the 'IPRF' (International Pediatric Research Foundation) logo. Below the header, it states 'PUBLISHED ON BEHALF OF THE INTERNATIONAL PEDIATRIC RESEARCH FOUNDATION'. The main content area has a red heading: 'Welcome to the author resource hub for Pediatric Research.' Below this, there is a paragraph of text: 'Here you will find advice on navigating the road to publication, tips on extending the reach of your article after it publishes, and information about open access publishing and Nature Publishing Group's open access funding services.' This is followed by a row of links: 'Letter to Editor | How to Get Published | Promoting Your Research | OA Publishing'. The next section is titled 'Letter to Editor' in red, followed by a paragraph about the new editor-in-chief, Cynthia Bearer. Below this is a link: 'Read the letter here'. The next section is titled 'How to get published' in red, followed by a paragraph about a 'How to Get Published' brochure. At the bottom, there is a link: 'Download the free PDF booklet now'.
