

UCSF School of Medicine Eli and Edythe Broad Center of Regeneration Medicine and Stem Cell Research, and UCSF Benioff Children's Hospitals Division of Neonatology, Department of Pediatrics In Residence Faculty Series

The Broad Center and the Division of Neonatology in the Department of Pediatrics at the University of California, San Francisco are recruiting a physician-scientist to establish a laboratory research program broadly focused in the area of neural vascular development. Appointment will be made at the Assistant rank of the In Residence faculty series. Academic rank is commensurate with experience.

The successful applicant will have a track record of obtaining extramural funding as a Principal Investigator at the K08 or equivalent level. Candidates must possess a medical degree and license to practice medicine, Board certification in Pediatrics, and Board subspecialty certification or eligibility in Neonatology. A proven ability to work collaboratively across disciplines and departments is an important preferred qualification for this position. The successful applicant will be eligible to apply for membership in the Developmental and Stem Cell Biology and Biomedical Sciences graduate programs.

The University of California San Francisco (UCSF) is one of the top biomedical research institutions in the nation. For the 15th year in a row, UCSF garnered the top spot among public institutions in funding from the National Institutes of Health (NIH) in 2021. The Department's clinical enterprise is based at UCSF Benioff Children's Hospital San Francisco, UCSF Benioff Children's Hospital Oakland, Mount Zion, Zuckerberg San Francisco General, and at a number of outreach clinics throughout Northern California, providing the Department with an unsurpassed opportunity to meet the needs of infants, children, and young adults throughout the Bay Area. In 2021, UCSF Benioff Children's Hospitals ranked in all 10 children's specialties in U.S. News and World Report. Nestled in a dynamic and unique geography distinguished by unprecedented innovations in technology, UCSF and the Department of Pediatrics are able to bring research and industry together to advance health.

Interested candidates can apply online at https://apptrkr.com/3350919 with a cover letter, curriculum vitae, statement of contributions to diversity, statement of research accomplishments, and contact information for three references. Applicant materials must list current and/or pending qualifications upon submission. The selected candidate must meet all of the qualifications at the time of appointment.

UCSF seeks candidates whose experience, teaching, research, or community service has prepared them to contribute to our commitment to diversity and excellence. The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age, or protected veteran status
