

# Chief, Division of Pediatric Endocrinology

Nationwide Children's Hospital and the Department of Pediatrics at The Ohio State University are recruiting a visionary, nationally recognized physician executive for the position of Chief, Division of Pediatric Endocrinology. The ideal candidate will have the skills and experience to oversee the Division's multidisciplinary clinical program, outstanding educational programs, multiple quality improvement initiatives, and innovative research portfolio. Applicants must have a distinguished academic record, a reputation as a collaborative leader, and the ability to mentor the next generation of academic pediatric endocrinologists.

The Division has comprehensive programs covering the full range of endocrine disorders, including subspecialty clinics for: Type 2 Diabetes, Turner's Syndrome, Prader-Willi Syndrome, Adrenal Disorders, Gender, Metabolic Bone Disease, and others. There are also a number of multi-disciplinary clinics covering a variety of conditions with endocrine related co-morbidities.

The Chief will report to the Department Chair and the Chief Medical Officer at Nationwide Children's Hospital. The successful candidate will be responsible for full program development and oversight, including clinical, educational, and research activities. Important additional components are the development of programs and mentoring for junior faculty and fellows, and support for quality improvement efforts. Candidate qualifications include board certification in pediatric endocrinology, a distinguished record of accomplishment as a clinician and investigator, a proven record of leadership and

managerial responsibilities, experience in providing guidance and counsel to junior faculty, and an academic record sufficient to merit appointment as an Associate or Professor of Pediatrics at The Ohio State University College of Medicine.

Named to the Top 10 Honor Roll on *U.S. News & World Report's* 2022-23 list of "Best Children's Hospitals," Nationwide Children's Hospital is one of America's largest not-for-profit freestanding pediatric healthcare systems providing unique expertise in pediatric population health, behavioral health, genomics, and health equity as the next frontiers in pediatric medicine, leading to best outcomes for the health of the whole child. Integrated clinical and research programs, as well as prioritizing quality and safety, are part of what allows Nationwide Children's to advance its unique model of care. Nationwide Children's has a staff of more than 14,000 that provides state-of-the-art wellness, preventive and rehabilitative care, and diagnostic treatment during more than 1.6 million patient visits annually. Home to the Department of Pediatrics of The Ohio State University College of Medicine, Nationwide Children's physicians train the next generation of pediatricians and pediatric specialists. The Abigail Wexner Research Institute at Nationwide Children's Hospital is one of the Top 10 National Institutes of Health-funded freestanding pediatric research facilities.
