

Search for the Director, Center for Clinical and Translational Research  
Seattle Children's Hospital and Research Institute  
Seattle, WA

Seattle Children's, one of the premier children's hospitals in the nation, invites inquiries, applications, and nominations for the Director of the Center for Clinical and Translational Research (CCTR). Reporting to the Senior Vice President and Chief Scientific Officer, the Director will have a broad range of responsibilities, including strategic planning, research leadership and vision, and program administration in support of Seattle Children's, the Seattle Children's Research Institute (SCRI), and the CCTR.

Seattle Children's serves the largest region of any pediatric hospital, covering nearly one million square miles across four states. The 407-bed hospital in Seattle anchors the health system, with additional care provided at 43 outreach sites across the Pacific Northwest. The SCRI is the fourth largest pediatric research institute in the United States, with 2,400 faculty and staff members across eight divisions conducting more than \$250 million in funded research.

The CCTR is home to more than 500 research faculty and staff members from over 30 clinical divisions and is the hub for clinical investigation and therapeutic development at SCRI. Building on a history of groundbreaking achievements, CCTR investigators and staff are working together to develop next-generation therapies for a wide range of pediatric diseases and disorders. The expansive research portfolio of the CCTR is spread across numerous research domains, and the CCTR operates the Clinical Research Scholars Program, which provides mentorship and career development for junior faculty.

The Director will engage, lead, and energize the scientific community of the CCTR to build new initiatives and collaborations across and outside the organization. Embracing an innovative, forward-thinking mindset, the Director will identify strategic priorities for investment; provide leadership in clinical and translational research, scholarship, and education; create an environment that emphasizes equity, inclusion, and belonging, and assume responsibility for all facets of the Center's finance and administration. The Director will possess an MD or DO, combined MD/PhD, PhD degree or equivalent degree in health-related fields and have a record commensurate with appointment as an Associate Professor or Professor at the University of Washington.

Seattle Children's has retained Isaacson, Miller, a national executive search firm, to assist with this important search. Confidential inquiries, nominations, applications, and additional information about the position and qualifications can be found at this link:

*Our community welcomes diverse experiences, backgrounds, and thoughts as this is what drives our spirit of inquiry and allows us to better connect with our increasingly diverse patients and families. Our organization recruits, employs, trains, compensates, and promotes without regard to race, religion, color, national origin, gender (including pregnancy, childbirth, or related medical conditions), sexual orientation, gender identity, gender expression, age, status as a protected veteran, status as an individual with a disability, or other applicable legally protected characteristics.*

*The people who work at Seattle Children's are members of a community that seeks to respect and celebrate all the qualities that make each of us unique. Each of us is empowered to be ourselves within this community, which cultivates and promotes equity, diversity, and inclusion at all levels.*

*Seattle Children's is proud to be an Equal Opportunity Workplace and Affirmative Action Employer.*

Salary range: The base salary range for this position will be: 225,000-\$500,004 annually (\$18,750-\$41,667 monthly), commensurate with experience and qualifications, or as mandated by a U.S. Department of Labor prevailing wage determination. This range may be inclusive of base salary provided through the Children's University Medical Group (CUMG) practice plan, in addition to base salary provided by the University. Please note that only compensation provided by the University is included in University benefit determinations and calculations. Compensation provided by Children's University Medical Group (CUMG) practice plan may provide eligibility for separate benefits offered by that organization.

Other compensation associated with this position may include incentive through Children's University Medical Group practice plan. Additional administrative responsibilities may be offered to a specific candidate with appropriate experience and qualifications which may result in an administrative supplement (ADS).
