

Endowed Neonatology Leadership Opportunity

Lead statewide impact through research, innovation, and clinical excellence in a Level IV NICU at MUSC in Charleston

MUSC is recruiting a Neonatology physician scientist for a senior faculty leadership role anchored by the Jean and George W. Brumley Jr. Endowed Chair in Neonatology. This opportunity offers the resources, autonomy, and platform needed to build programs, recruit teams, and translate discovery into improved outcomes for newborns.

The role is supported by a high acuity Level IV NICU and a fully integrated maternal-fetal-neonatal continuum, enabling longitudinal research rarely achievable at a single institution. As South Carolina's only comprehensive academic children's health system, MUSC provides a statewide referral base and telehealth infrastructure that supports

population level research and implementation science across diverse communities.

WHY CHARLESTON

Charleston blends coastal living with professional opportunity and cultural depth.

- Ranked among South Carolina's best places to live (U.S. News & World Report, 2025-2026)
- Strong livability and health care access (AreaVibes, 2026)
- Historic, walkable city with beaches, arts, and a nationally recognized food scene (Official City Guide, 2026)
